

HY-GRADE
PRECAST CONCRETE

PRECAST CONCRETE LANDINGS

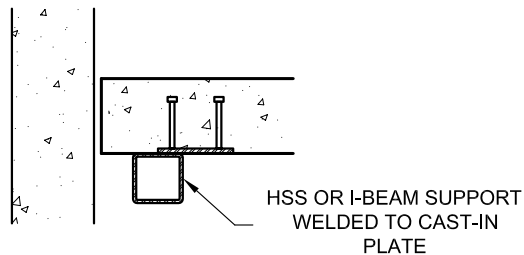

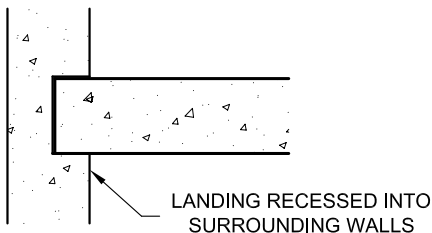

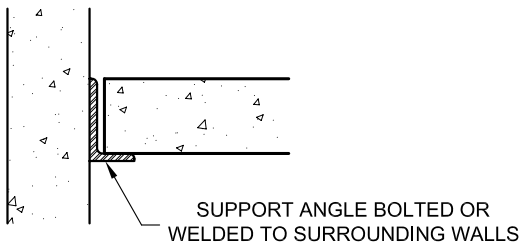

Hy-Grade Precast Concrete Landings are pre-finished/ pre-engineered concrete slabs which eliminate the need for forming and pouring landings on site.

These units are typically 200mm (8") thick and are made with 30 Mpa (4300 psi) concrete. Precast concrete is maintenance free and will not rust, rot or burn (min. 2 hour fire rating). Precast landings are safe, quick and easy to install.

CSA & OBC 2006 (Part 3 and 4) Accepted
